Before the weather event, a member of each household that will be present prior to the impending storm is instructed to call just one of the block captains that is listed for their street in Villaggio Reserve. That captain will call that member or anyone else designated, to inquire about the status of their edifice after the weather event has passed. The captain cannot and will not enter the member's house or villa. He or she will then call the Villaggio Reserve emergency hotline: (561)-641-8554.
